# NSW Budget 2014

Making our state a stronger and better community for all

## NSW Premier Mike Baird's message.

Three years ago NSW had a serious problem. Slow economic growth, higher unemployment rates, increased debt, and increased taxes were putting the community under pressure.

Now, after three years of responsible decisions by the Liberal Government, NSW is leading the nation in almost every economic category and the benefits are being delivered to our community.

The local community in Davidson will benefit from a range of state wide initiatives including a record \$61.5 billion for transport infrastructure, as well as major investments in health, education and supporting the most vulnerable in our state.

This year's Budget will make our community economically stronger and better able to provide the local services, infrastructure and support people need.
